

FERMENTER - 910 HL

Product Short Description:

Fermentation tanks built by Holvrieka, offering a large gross capacity of 910 hl (770 hl net). These tanks are designed to operate at a pressure of 1.5 bar, enabling light-pressure fermentation and carbonation. They are equipped with glycol cooling pockets for precise temperature control.

TECHNICAL DETAILS :

Brand/Builder	Holvrieka
Gross capacity	910 hl
Net capacity	770 hl
Tank pressure	1.5 bar
Cooling	Glycol cooling pockets
